Filing Receipt/Priority Claim

Please add a new paragraph at page 1 of the specification between the title and
“Technical Field.” The new paragraph should read as follows:

--This application is a continuation of Serial No. 08/860,959, filed June 23, 1997,
which issued as U.S. Patent No. 5,958,436. Parent application Serial No.
08/860,959 was filed nationally on June 23, 1997, pursuant to 35 U.S.C. § 371,
based on International Application No. PCT/US95/16990 (filed December 21,
1995). The present application and the aforesaid PCT application claim the
benefit of the filing date of now abandoned application Serial No. 08/362,101
(December 21, 1994).--

Applicants requested that a similar paragraph be added by way of Section IX on page 4 of
the Filing Under 37 CFR § 1.53(B), mailed on September 21, 1999, with filing of the
present continuation application. Yet, a Response to Request for Corrected Filing
Receipt mailed by the Patent Office on April 23, 2003, indicates that that amendment was
not entered or the information was not conveyed to the Office of Initial Patent
Examination. The Corrected Filing Receipt mailed on May 24, 2004, also did not contain
all requisite priority information. As such, please amend the first page of the
specification as noted above and issue a new corrected Filing Receipt showing all priority
information for this application.

Amendments

Claim 7, as previously amended to depend from claim 1, lacks antecedent basis. In order to correct this inadvertent oversight, please amend claim 7 as noted in the following claim listing. Support for this amendment can be found, for example, in claims 6 and 7 of the originally filed application. Claim 23 is also being amended to correct a typographical error.

In addition, new claims 115-119 have been added. Support for the new claims can be found throughout the originally filed application. For example, support for new claim 115 can be found on page 26, lines 3-7 of the originally filed application. Support for new claim 116 can be found, for example, on page 24, line 28, to page 25, line 3. Support for new claims 117-118 can be found, for example, on page 25, lines 3-11. Support for new claim 119 can be found, for example, on page 24, line 25, to page 26, line 11.
